Questions 23-25

People from all over the world are familiar with fairy tales such as Sleeping Beauty, Cinderella, and Snow White. The stories were long old tales from different locations of Germany. The Grimm brothers visited many villages and towns of the country and collected many of these old stories for children, and after that they wrote these stories together and published the collection Grimm's Fairy Tales in 1812.

More than one hundred years later, Disney, the famous movie company, reproduced the stories into animations for children. Although many of the Disney animations have happy endings, the first stories written by the Grimm brothers hardly had the same joyful endings as we know from the movies. Many of the stories were dark, sad, and less peaceful and weren't good for kids.
